Q3. Two examples to show the contribution of culture to the growth of nationalism:

1. A primary factor for the growth of nationalism in Europe was Romanticism. Romanticism was a European culture movement aimed at developing national unity by creating a sense of shared heritage and common history. The Romantic artist's emphasis on emotions, intuition and mystical feelings gave shape and expression to nationalist feelings.

2. Apart ~~for~~ from Romanticism, language also played an important role in developing nationalist feeling in Europe. For example, during Russian occupation, the use of Polish was seen as a symbol of struggle against Russians. During this period, Polish language was forced out of schools and Russian was made compulsory everywhere. Many members of the clergy started refusing to preach in Russian, and used Polish for church gatherings and other religious activities. This way the use of Polish helped spread the message of national unity.
